**THE CHINGARORA**  
**ANTI-NERVOUS**  
**SMOKING TOBACCO**

**CHINGARORA TOBACCO** grows from the  
of the "ORIENT," and is possessed of a pe-  
delicious flavor entirely unknown to the to-  
of all other climates. But its unprecedented  
ability has sprung from the fact of the entire ab-  
sence of that deadly poison *Nicotin*, which permeates  
other tobacco, and which is the one and sole  
cause of the distressing nervous diseases, dyspepsia,  
which most invariably sooner or later, follow

genence of the pipe and cigar. At the recent  
tion of tobacco from all parts of the world  
Academy of Sciences, in Paris, the renowned  
M. LAMOURÉAUX, declared that while En-  
and American tobacco contained fully eight  
%, and the purest Havana tobacco from two  
per cent. of *Nicotin*, the CHINGARORA did  
contain one discoverable particle of that deadly  
drop of which, extracted, will destroy life.  
Agent at BOMBAY has shipped us large quan-  
ties of the CHINGARORA during the past year

and although we have been pressed to supply sand for this delicious luxury to the veteran smokers, yet we are now prepared to offer it in unlimited quantities, at a price much lower than some of our competitors. It is a tobacco of far inferior quality. The connoisseur has but to smoke the American brand and cigars, which are invariably chemically treated, to be disgusted with the medicinal taste which leaves a nauseous, unhealthy coating in the mouth and in time seldom fails to shatter the ner-

atives of the "ORIENT" smoke the CHIN-  
A from morn till night, from youth to age,  
happily unconscious of the wild, distressing  
ch courses through the veins of the inhale  
of tobacco containing *Nicotin*.  
vite every lover of the weed to try the CHIN-  
A, and guarantee unprecedented pleasure in  
lous flavor.
